2024 Impact

UI Extension, Clark County provided outreach to beef and alfalfa farmers, providing education and resources to enhance their operations. This included workshops and field days focused on improving production practices, managing pests and diseases, optimizing irrigation techniques, sharing research-based information on the latest advancements in beef and alfalfa production, and facilitating access to resources and programs offered by University of Idaho Extension and other agricultural organizations.

4-H in Clark County

The 4-H program in Clark County saw continued growth and engagement in 2024. Youth participants actively participated in a diverse range of STEM-focused day camps, exploring topics such as Lego robotics, plant science, soil science, cooking and art. Animal projects remained a cornerstone of the program, fostering valuable skills and knowledge in animal care and management.

On the Horizon

UI Extension, Clark County will continue to expand programming and outreach efforts in the coming year by offering day camps, animal projects and STEM based education to the youth of Clark County.
