Landscaping for Fire Prevention

Program

Every summer, we see numerous media reports of homes in the woods being threatened by wildfires. Forest fires are a fact of life in the Inland Northwest. Homes located on forested lands (the "wildland urban interface") can be at high risk from forest fires.

Forest fires are not always easy to stop. But you can take action to reduce the risk of damage to your home from wildfire.

Landscaping for Fire Prevention will help forest homeowners modify their houses and landscapes to make them less likely to burn and easier for firefighters to access.

Participants will view videos, discuss their wildland fire experiences, and participate in a simple exercise to assess their home's interface fire risk.

Dates & Locations

Landscaping for Fire Prevention is being held in conjunction with UI Master Gardeners will be held at the following dates and locations:

Sandpoint

Thurs., February 20, 2025 (9am to 12pm)
UI Sandpoint Organic Agriculture Center
10881 N Boyer Road

St. Maries

Thurs., March 27, 2025 (1pm to 4pm)
Community Presbyterian Church
100 College Ave

Additional Sessions?

Additional sessions of this program can be scheduled for committed groups of 10 or more.

Registration

Each session has limited space, so please return the registration form on the back of this flyer as soon as possible to assure your place and help us plan. A \$10.00 registration fee includes program materials (including a 21-page University of Idaho Extension publication on the topic) and refreshments. For registration questions, contact the University of Idaho Extension office in the county in which the program will be held (see registration panel of this flyer).

Additional Sessions?

If you have a group of 10 or more who will commit to attending this program at a different time or place, contact Chris Schnepf at (208) 292-1288.
